## Oakwood Maths Basic Skills Logs Panets AWard

Name $\qquad$ Class $\qquad$

## What is the Planets Award?

In this Number Planets log, the children will continue to work on learning number facts, becoming more rapid in their responses.

The log consists of 10 statements, showing the specific maths targets that the children are working towards in KS1.

The statements do not necessarily need to be completed in chronological order.

The targets on the pages need to be fully embedded in the children's day to day maths.

## How can you support your child at home?

At home, the children could use everyday objects along with dominoes, dice, number cards, objects and playing cards, to support their work towards the Planets Award targets.

In this log, there are helpful images, ideas and questions for each target, which will support you with possible activities at home.

The children can record their work at home and bring in examples of their maths to share with us at school. They could take photographs or draw images to show what they have been doing.

## I can recognise odd and even numbers

. Sort number cards into odd and even numbers
Recognise that even numbers have 0, 2, 4, 6, 8 in the units column
. Recognise that odd numbers have 1, 3, 5, 7, 9 in the units column
Count in odd numbers
. Count in even numbers

## I can count in threes to 30 and in fours to 40

. Count in threes and fours in order and write the numbers

- Count in threes and fours along a number line
Order number cards Sort objects into groups of three or four and count

| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 |
| 21 | 22 | 23 | 24 | 25 | 26 | 27 | 28 | 29 | 30 |
| 31 | 32 | 33 | 34 | 35 | 36 | 37 | 38 | 39 | 40 |

|  |  |
| :---: | :---: |
|  |  |
| ${ }^{31} 32$ 32 $34435.366^{37} 38389$ |  |
|  |  |
|  |  |
| 61626364 | 686970 |
| 71727374 | 1787980 |
| 818283848 | 7888990 |

## I know which number to add to reach the next multiple of 10

. Find missing numbers:

$$
24+\square=30
$$

. Write number sentences
. Count along a number line
. I am at 15. How many more to make 20?

Number Line 0-30

## I can add and subtract two multiples of 10

. Write number sentences
. Count along a number line

- Use objects to support
. Complete puzzles to match questions and answers
. Choose the correct answer to solve a number sentence

$$
\begin{aligned}
& 20+40= \\
& 50-30= \\
& 70-20= \\
& 80-40=
\end{aligned}
$$

## Useful

| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 |
| 21 | 22 | 23 | 24 | 25 | 26 | 27 | 28 | 29 | 30 |
| 31 | 32 | 33 | 34 | 35 | 36 | 37 | 38 | 39 | 40 |
| 41 | 42 | 43 | 44 | 45 | 46 | 47 | 48 | 49 | 50 |
| 51 | 52 | 53 | 54 | 55 | 56 | 57 | 58 | 59 | 60 |
| 61 | 62 | 63 | 64 | 65 | 66 | 67 | 68 | 69 | 70 |
| 71 | 72 | 73 | 74 | 75 | 76 | 77 | 78 | 79 | 80 |
| 81 | 82 | 83 | 84 | 85 | 86 | 87 | 88 | 89 | 90 |
| 91 | 92 | 93 | 94 | 95 | 96 | 97 | 98 | 99 | 100 |

## $\begin{array}{llllllllll}10 & 20 & 30 & 40 & 50 & 60 & 70 & 80 & 90 & 100\end{array}$

## Resources

## Even

Numbers ending in

## Odd

Numbers ending in

## I can add and subtract multiples of 10 within 100

. When adding and subtracting 10, remember that the units stay the same and the tens digit changes by going up or down
. Write number sentences

- Count forwards and backwards along a number line
- Use objects to support
- Use a number grid to support:

$$
37+30=67
$$

## I can add multiples of 10 to make 100

. Use your number bonds to $\mathbf{1 0}$ to help

- Fill in missing box questions
. Learn all the different combinations at random
Match cards to make 100
Play dominoes
Match puzzle pieces to find pairs to 100
. Play pairs games

## I can find number pairs that total 100

eg. $65+35=100$
$15+85=100$
$100=72+28$
$100=56+44$
Find all pairs of numbers to total 100 Match number cards to make 100 Complete missing box questions

$$
\begin{aligned}
& 67+\square=100 \\
& \square+31=100
\end{aligned}
$$

| 100 |  |  |
| :---: | :---: | :---: |
|  |  |  |
| 64 | 67 | 19 |
| 36 | 6 | 81 |
| 33 | 78 | 22 |
| 27 | 73 | 94 |

| 54 | 82 | 34 | 6 | 50 | 65 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 90 | 5 | 86 | 0 | 94 | 50 |
| 33 | 46 | 27 | 30 | 14 | 11 |
| 78 | 95 | 89 | 67 | 45 | 35 |
| 55 | 73 | 87 | 18 | 8 | 10 |
| 22 | 70 | 66 | 92 | 100 | 13 |

## I can recognise the inverse of addition and subtraction to solve missing number questions.

ㅁㅁㅁㅁ
$5+3=8$
$8-3=5$
. If I know $\mathbf{1 7}+\mathbf{8}=\mathbf{2 5}$ what else do I know?
$8+17=25 \quad 25-8=17$
$25-17=8$

What number sentences can you make with these numbers?
23, 6, 17?
Or 73, 20, 93?

Can you solve...?
$42-\square=30 \quad 68=20+\square$

## I can add two 2-digit numbers including bridging through ten

$$
\begin{gathered}
4+4+2,3=67 \\
200_{3}
\end{gathered}
$$

ADDINg TWO TWO-Digit NuMBEES
$57+39=$

First add tens: $57+30=$ $\qquad$
Then add ones: $\qquad$ $+9=$ $\qquad$
Partition the numbers into tens and units

Count on in tens first, then add the units.

Using apparatus such as Dienes and Numicon

- Use number squares

How can you check your answer? eg. "I could add 40 then minus 1"

## I can subtract two 2－digit numbers

$45-30=15$

回阳明
$67-33=34$

$54-12=$ $\qquad$

Partition numbers
Count back in tens first and then the units
－Use apparatus such as Dienes or Numicon to help
－How can you check your answer？

Congratulations，you have achieved your Planets Award．

School Signature
$\qquad$

## Oakwood Maths

 Basic Skills Awards
## At Oakwood Primary School, we have a Basic Skills Log system, which leads to awards.

## Rockets, Stars and Planets

These three logs are worked through in Years R, 1 and 2. They help embed basic knowledge of the number system and number bonds.

Children should aim for all three awards by the end of Year 2.

## The Bronze Award

This is knowing all your tables up to $12 \times 12$ and all the division facts which go with them.

Children should aim for this by the end of Year 4.

## The Silver Award

This is using your multiplication and division facts to multiply and divide by multiples of 10 , knowing square numbers, doubling and halving and knowing common fraction equivalents.

Children should aim for this by the end of Year 5.

## The Gold Award

This is using your multiplication and division facts to work with money, decimals and having a range of mental maths strategies for all occasions!

Children should aim for this by the end of Year 6.

When children have achieved the Gold Award, they can move on to the Platinum and Platinum Plus Awards.
