What do I already know?

- I can use technology safely and responsibly.
- I am aware of the audience of various applications
- I can recognise sensible choices about sharing, behaviour and solving problems that arise online.
- I can give examples of acceptable and unacceptable behaviour online.
- I can start to solve social problems that happen online.

Key Words

| | | | |
|-----------------------|---|------------------|---|
| internet troll | Someone who interacts online deliberately to frustrate or upset. | meme | Image, video or text which can be shared, imitated and modified online. |
| fact check | Finding out whether information is false or misleading. | fake news | Information that appears genuine, but is in fact false or misleading. |
| infographic | A combination of text, images and data used to present information. | satire | Comedy which imitates aspects of real life, to make fun of it. |

Our Learning Steps

1. How We Use Computers

I will learn about networks in our school.
I will learn how search results are selected and ranked, and how I can use logic terms to search.

2. Finding Out

I will ask questions about how to improve my online safety focussing on the issue of cyber-bullying. I will use **Lock It Block It Show It Tell It** to help solve problems and discuss how to solve social problems.

3. How Does It Feel?

I will explore situations where people have been affected by trolling and cyber-bullying. I will learn strategies to prevent and deal with the effects of cyber-bullying.

4. Using The Internet Safely

I will use the internet to research a subject which attracts mis-information. [I will learn to fact-check](#) information using reliable sources and evidence. I will create some fake news as well as an infographic about how to spot fake news.

5. Assessment: What I have learned

I can give strategies to prevent and deal with cyberbullying.
I can recognise online misinformation.
I can create an infographic.
