

Respect, Believe, Achieve

# Year 5

## 3D Art

Using ICT

### Key Words

<b>element</b>	One piece of a drawing or model (e.g. a roof, a sunny sky)
<b>layer</b>	Images can be put in front or behind each other on different layers.
<b>3D</b>	Objects with height, length and width.
<b>block</b>	A single cube which can be used to make objects.
<b>chisel</b>	A tool used to remove part of an object.
<b>paste</b>	When you add a picture or text into a document.

### What do I already know?

- I can select, copy and paste images.
- I can combine shapes.
- I can use art tools including fill with the mouse.
- I can change colours.
- I can undo my mistakes.
- I can plan ahead and make changes.

## Our Learning Steps

### 1. 2D Layers in 3D space

I will create a 3D collage using magic select tool in Paint 3D.

### 2. Select 3D objects

I will choose 3D objects to create a scene from a story. I may also add more elements and adjust lighting.

### 3. Plan an illustration

I will design characters and backgrounds to suit my story.

### 4. Design a scene

I will combine elements to create a 3D scene.

### 5. Using stills

I will position the camera to take stills which I will use to illustrate a story.

### 6. Assessment:

I can create a 3D composite image  
I can use images to illustrate a story  
I can make use of effects to highlight details and match the atmosphere of the story.
