Key Words

Page shape

Like traditional paper books, ebooks can have different shaped pages. Portrait pages are more for story books. Landscape books are better for information books.

Add content

The + icon in Book Creator is used to add the different types of content to the pages, such as text, images, videos, shapes and audio.

Inspector

Use the i to make changes to the content you have added to a page..

Hyperlinks

Hyperlinks (links to pages or websites) can be added to text and images, to make the ebook interactive. This could be used to make a contents page or quiz.

Embed

Adding an item into an existing document.

Preview

Use the ► to see what your ebook will look like to a reader. This is a good way to test out your content, such as the hyperlinks.

What do I already know?

- Copy and Paste text and images.
- Find and replace words.
- Format text for a purpose.
- Add bullet points to make lists.
- Experiment with keyboard shortcuts.

Our Learning Steps

1. Book creation

Add page colour and style then position and format text.

2. Images

Add and position images from camera/internet.

3. Audio

Add audio, including hiding it behind an object.

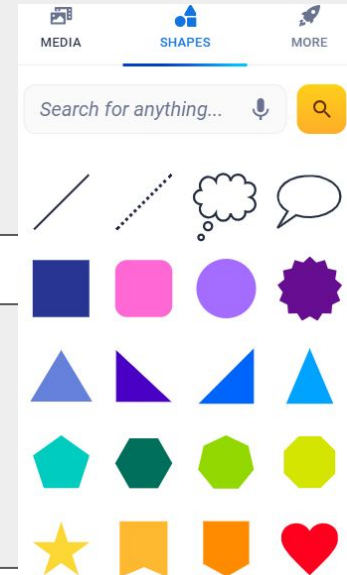

4. Hyperlinks

Add hyperlinks to text and images.

5. Shapes

Add and format shapes.

6. Navigation

Use hyperlinks for navigation.
