

Respect, Believe, Achieve

Year 1

E-Safety

Digital Literacy

Key Knowledge

1. Understand what personal information is and why we keep personal information private.
2. Understand why websites want personal information.
3. Identify when and where to go for help when concerned.
4. Understand the dangers of sharing photos online.
5. Understand that people online are not always who they say they are.
6. Understand how to trust information online.
7. Learn to use the Internet responsibly.
8. Understand why we should be respectful.

Key Words

personal information

This is information about us, including our name, address, telephone number or passwords. We need to make sure that we do not put this information on the internet for people we do not know to see as we would not do this in the real world. For example, if we are playing an online game then do not use your real name, use something else.

sharing

The internet allows us to post photos and videos online for others to see, this is called sharing. We do not want people we don't know to see personal photos of videos of us or our friends and family so we have to check with a grown up we trust before sharing them online. We would not give a photo of ourselves to a stranger in the real world so we do not do it online either.

permission

If we have taken a photo of video of someone else then we need to ask their permission before posting it online as they may not want others to see it.

report

If we see something online that upsets us or we think is wrong then we need to tell an adult we trust, such as a parent or teacher.

Our Learning Steps

1. What is the Internet?

How do you use the internet at home and school?

What is the Internet?

2. Personal Information

Understand what personal information is and why we keep personal information private.

3. Reporting

What should we do if we see a video online that makes us sad or scares us?

4. Sharing and personal information

What are the dangers of sharing photos online? What should we do if someone wants to be our friend online?

5. Trust

Can we trust everything we find on the internet?

6. Respect

Why is it important to be responsible on the internet? Why is it important to respect people?
